

**A 6/A 6M**

**TABLE 15 Permitted Variations in Waviness for Plates**

Note: 1—Waviness denotes the maximum deviation of the surface of the plate from a plane parallel to the surface of the point of measurement and contiguous to the surface of the plate at each of the two adjacent wave peaks, when the plate is resting on a flat horizontal surface, as measured in an increment of less than 12 ft of length. The permitted variation in waviness is a function of the permitted variation from a flat surface as obtained from Table 13 or 14, whichever is applicable.

Note: 2—Plates must be in a horizontal position on a flat surface when waviness is measured.

Permitted Variation from a Flat Surface (from Table 13 or 14), in.	Permitted Variation in Waviness, in., When Number of Waves in 12 ft is						
	1	2	3	4	5	6	7
1/16	1/16	1/8	3/16	1/4	1/4	1/4	1/4
